The Strength and Styling of Atlantic Pools

Atlantic's Exclusive Support System Combines Great Looks and Real Strength

GIBRALTAR BUTTRESS-FREE SYSTEM

The Gibraltar Buttress-Free is an oval pool that does not require angle side supports (buttresses), which take up extra yard space. This unique system delivers unsurpassed structural strength without visible supports, has an attractive streamlined appearance and takes up less valuable yard space. For example, a 15' x 30' oval pool with buttresses requires 21' x 30' once installed. A 15' x 30' Gibraltar oval only requires 15' x 30'. You save 180 square feet of yard space or have enough room for a larger pool.

Gain up to 2.5 ft. per side!

A vigorous backhoe test is performed prior to the launch of each new pool.

All-Weather Protection for Years of Family Fun

The top and vertical rails on every Atlantic pool undergo a state-of-the-art protective treatment process. In addition, they are coated with Texture-Kote. This combination provides incredibly long-lasting, all-weather protection with added resistance against corrosion, scratching, and damaging UV rays. Atlantic's unique quadra-fold system and bolting pattern provides maximum wall joint strength. Pool walls are corrugated

for increased durability and resistance to ice and impact damage. Only Atlantic pools feature the self-supporting stabilizer bar developed to simplify homeowner installation. This ease of assembly has made Atlantic pools the number one choice of many professional installers. Atlantic pools are available in an array of attractive colors and patterns.
